DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is still unclear, indefinite and incomplete. In the body of the claim, line 4 should begin - -a t least two alternative types of alternative breast feeding disks each having an outer surface and an inner surface -- - in order to clearly claim applicant's invention of "absorbent breast feeding disks" as stated in the preamble. In line 5, after "configuration" insert -- - on the outer surface of said disk - -. In line 7 after "protective disk" insert - - formed of an absorbent material - - -. In line 8, after "breast" insert - - and wherein said system provides an absorbent disk each with a different outer surface marking for alternative placement over each breast - - . In claim 2, line 4, after "disk" insert - - outer surface - - so that it is clear that the configuration is on the disk outer surface as disclosed. In claim 3, line 3 before "air bubble" insert - - on an outer surface of the disk that can be burst or deflated to convert the disk into the disk configuration of the other type - - . In claim 4, line 1 after "A" insert - - absorbent breastfeeding". After "mother" insert - said system - -. In claim 4, line 4 after "garment" insert - - worn there over - - and in line 5 after "breast" insert - - thereby protecting the bra or other garment cup worn there over - - -. In line 7 after "other" insert - - one - - and change "breast" to -

breasts -- - and in line 8 after "garment" insert - - worn thereon- - and after "breast" insert - - thereby protecting the bra or other garment cup worn there over - - . In line 12 after "configuration" insert - - on an outer surface of the disk - - . In lines 13 and 15, after "marking" insert - - on an outer surface of the disk - - . Claim 5 does not further limit claim 4 since the language is already in claim 4. Claims 5, 6 and 9 should be in independent form without parts (b) and (C) included therein. In claim 10, line 2 after "disks" insert - - formed of an absorbent material". In line 4, after "disk" insert - - on an outer surface thereof - - . In claim 5 before "bubble" insert - - plasticized - - . The claim preamble should claim the "protection device" as being an - absorbent protection device- - .

Claims 1-10 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
